WELCOME TO OUR

Market Snapshot

“Owner-occupiers and first home buyers were the most active buyer groups, with early interest from investors.

Most vendor expectations are realistic, although, with the decline in interest rates, some are hopeful of price increases. Attendance at open homes varied across the region, with newer listings attracting higher numbers. Auction room activity has picked up, both in attendance and clearance rates.

Market sentiment was influenced by factors such as decreased interest rates, early signs of spring-like activity, economic progress, and general optimism. Local salespeople report a positive shift, but that doesn't mean a sudden change in the market, indicating it could take some time.

As we head into spring, local agents remain hopeful the market will continue improving in the coming months and hopefully see further positivity, engagement and confidence.”

August Facts

Ray White New Zealand agents across the country saw increasing optimism in the market after scheduling 128 properties to go under the hammer last week.

Ray White New Zealand head auctioneer Sam Steele said though the OCR's recent announcement may seem a distant memory, its impact on the broader market has been profound.

"The announcement sparked fierce competition at auctions nationwide as buyers rushed to seize fleeting opportunities," Mr Steele said.

"This resulted in a nearly 49 per cent success rate across 76 scheduled auctions. An average of 2.2 registered bidders per auction, potentially signalling the end of the current market cycle.

"Auctions with three or more registered bidders achieved success rates exceeding 76 per cent, reflecting vendors' continued confidence in this method, which consistently outperforms others.
