

WELCOME TO OUR Market Snapshot

“Owner-occupiers and families moving for schooling were the most active buyer groups across Canterbury. First-home buyers were prevalent in Christchurch.

Most vendors were ready to meet market expectations. However, other vendors expected price increases as interest rates dropped along with OCR rates. Attendance at open homes increased for new listings and those in school zones but varied week-by-week elsewhere.

Auction room rates were steady and generally very well attended, even though there were fewer cash buyers. Market sentiment shifted to reflect a more motivated and confident market due to the recent OCR review and the lower interest rates.

Local agents report the property market in Canterbury as ticking along steadily and predict the holiday period will cause market activity to slow down. They are excited to see what the 2025 year will bring.”

Jen Baird REINZ CEO

November Facts

Over the past week, Ray White hosted 218 scheduled auctions across New Zealand, achieving a clearance rate of 61.4 per cent. This reflects a growing inventory of properties and increased options for buyers.

With an average of 2.2 registered bidders per auction, buyer activity has noticeably strengthened. Selecting the right method of sale is more critical than ever, and auctions remain a standout choice.

"Properties sold via auction average just 23 days on the market, compared to 48 days for private treaty sales, underscoring the efficiency of this approach in today's dynamic market. Our sales teams have observed a shift in buyer sentiment, with many acting decisively to secure properties as the 'buyer's market' appears to wane.

Waimakariri District

November saw sales increase to 168. Of these, 140 were residential sales. The highest residential sale was in Pegasus - \$1,950,000 which was for a 4-bedroom, 3-bathroom, 3-car garage home on 2,131sqm.
